## FORGOTTEN HISTORY SERIES:

### THE CYGNUS MYSTERY

Recent scientific discoveries are leading us to some startling conclusions; none more intriguing than evidence pointing to early man's awareness of sophisticated modern discoveries. Follow author Andrew Collins on a voyage of discovery that leads from the oldest known temple in the world to a prehistoric cave map, to a common belief shared by key ancient cultures, all of which were aware of the star system Cygnus' unique place in the cosmos - and it's significance as the spirit path to heaven. Most surprising is Collins' well reasoned case for ancient awareness of cosmic rays emanating from Cygnus, and for their being the spark which ignited evolution - the same spark which continues to alter our DNA right through to the present day.

### THE YUCATAN HALL OF RECORDS

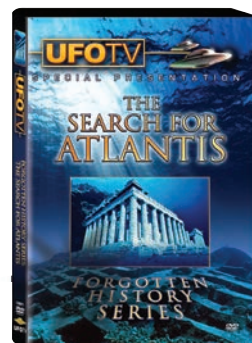

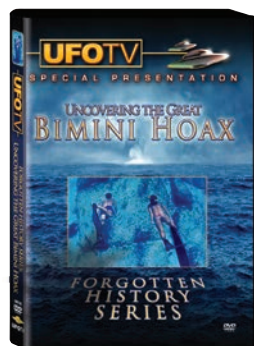

About 12,000 years ago the south eastern part of America was struck by a comet which all but erased the region's history. The disaster, according to Edgar Cayce, may be the solution to the disappearance of the island empire of Atlantis. Cayce felt the Atlanteans created three Halls of Records: in Giza, Egypt; the Bahamas; and the Yucatan. While efforts to discover them are ongoing, a recent focus of the Cayce Foundation has been to the Yucatan. Travel there with a research team - to such exotic locations as Piedras Negras, Andros and the remote island of Ceritos, as they uncover tantalizing artifacts and a proper time frame carbon dated human remains among remarkably constructed ancient temples which scientifically support Cayce's predictions.

### UNCOVERING THE GREAT BIMINI HOAX

Since its discovery in 1968, 'the Bimini Road' in the Bahamas has gained serious attention as a true relic of the lost continent Atlantis. But a core of skeptical geologists maintain it is nothing more than a natural limestone formation. Their findings have poked fun at believers, and that its discovery was predicted by psychic Edgar Cayce - this while ignoring evidence which contradicts their claims. Over the course of this documentary we learn that a hoax has been perpetrated - by the geologists themselves. Observe the discovery of numerous man made artifacts along the road, and of a pattern of lies, careless research and factual errors which counter every aspect of the skeptics arguments. This investigation is one you won't soon forget.

### THE SEARCH FOR ATLANTIS

In 1968 commercial pilots reported the discovery of mysterious stone formations under the shallow water around the Bahamas Islands. Oceanographers and divers confirmed the presence of "The Bimini Road," some of which could only have been man-made. Visit Bimini Island where an ongoing network of huge stones confirm the 1940 prediction by Edgar Cayce that portions of Atlantis would be found there in 1968 or 1969. Explore these structures as investigators solve the mystery of numerous, enigmatic, sub-surface circular structures. This unforgettable visit will also take you to a lost temple on the island of Andros, and to an even larger underwater structure than those off Bimini. Another stunning example of Cayce's predictions revealing themselves to be hard fact.

The creators of The Mysterious Origins of Man present a revolutionary film that examines one of our greatest mysteries: The Great Sphinx of Egypt Hosted by Charlton Heston, this program presents geological evidence that the world's most famous monument, The Great Sphinx of Egypt, may be thousands of years older than we have been taught. How were the massive 200-ton limestone blocks lifted and stacked five high to build the Sphinx Temple? John Anthony West and a team of seismologists, headed by Boston University's Professor Robert Schoch, discovered a square cavity directly beneath one of the paws of the Sphinx. According to the experts, it does not appear to be a natural formation. Could this be the Hall of Records of Atlantis? Some of these methods, often shocking, bizarre, and just downright amazing, are explored here as we meet the Underground Doctors.
